

**UP TO 70% OF ALL CANCER DEATHS  
ARE PREVENTABLE THROUGH DIET ALONE.**

**STOPPING  
CANCER  
BEFORE IT STARTS**

**A Lecture by Michael Greger, M.D.**

In this lively and engaging presentation, Dr. Michael Greger reveals how certain common foods work to protect your body from the ravages of aging, cancer and other chronic degenerative diseases.

*“Michael Greger, M.D. is the most articulate and entertaining medical speaker on plant-based nutrition today. He is a joy to listen to and to learn from - I fully support his work.”* **Dr. Michael Klaper, Director, Institute of Nutrition Education and Research**
